

## K8AK-PM2

Monitoring relay 22.5mm wide, sim. monitoring of over-/under-voltage, phase sequ. & loss in 3phase 3wire & 4 wire sys.  
operating 220 to 480V AC, 2 SPDT

# Specifications

|                     |                                                |
|---------------------|------------------------------------------------|
| Functions           | Over/under voltage, Phase loss, Phase sequence |
| Installation type   | DIN rail                                       |
| Terminal type       | Screw                                          |
| Size                | 22.5 mm                                        |
| Connection method   | 3-wire, 4-wire                                 |
| Supply voltage AC   | 220-480 V                                      |
| Output type         | Relay                                          |
| Contact description | 2 x SPDT                                       |
| Body color          | Black                                          |
